

M. J. ELECTRIC, LLC

Company Profile:

Founded in 1959, M. J. Electric has grown from a small town electrical contractor based in Michigan's Upper Peninsula into a national corporation specializing in electrical and instrumentation construction and maintenance. MJE is a union contractor with over 1400 employees and an annual revenue exceeding \$350 million.

M. J. Electric has a reputation for superior quality construction through hard work and intelligent innovation. Our resolute commitment to safety, professional competence, and customer satisfaction sets the standard for all other electrical and instrumentation contractors. A long record of successful projects and an honest open manner has produced a long list of repeat customers.

Founded: January 1, 1959

SIC Code: 1731
